Situated just a stone throw away from the beach and yet situated in a quiet and protected neighbourhood surrounded by other private luxury properties. The Villa was designed and finished by renowned and awarded experts and is decorated with superior quality materials and décor.

The first WOW starts even before entering the property – you are welcomed from far by a large vertical garden which is spreading its natural and lavish green across the façade.

At the entrance of the property you are surrounded by the gentle splashing of the infinity pool. The large terrace offers a cozy lounge as well as a large dining table. Sunloungers invite to linger at the pool side. In the back of the garden a rustic BBQ promises long summer evenings while being enchanted by the twinkling water. The pool – which can be heated in the cooler months – is equipped with a counter current and has a large Jacuzzi area. It's amazing depth of 4 meters and its large aquarium window allows you to swim by those chilling in the cinema room in the basement.

What amazing views you have from the moment of opening the main door! Step into the hall which broadens to an open plan living area which flows into the kitchen and dining area. The impressive 6 meter ceiling height will inspire you with a further vertical garden and amazing floor-to-ceiling windows. The fully equipped state of the art Bulthaup kitchen leaves no wishes unfulfilled and the dining area is a perfect place to enjoy the meals within the cooler months
