Upon arrival at the villa, the automatic gate opens to give access to the fenced plot. The views, various plants, walking paths and trees are beautiful and pleasant. The heart of this home is its covered interior space. This space provides access to the living room and spacious kitchen. It also provides access to the three spacious bedrooms and two bathrooms. The direct connection to the covered terrace creates a wonderful combination of indoor and outdoor space. During the colder winter months, the interior space can be closed off from the outdoor terrace with luxurious glass curtains. On the other side of the house, we enter the bedroom area. The first two bedrooms are spacious and equipped with modern air conditioning. These two bedrooms share a modern bathroom with a sink and spacious walk-in shower in the middle. The toilet is located in a separate room, equipped with a sliding door to make optimal use of the available space. At the end of the corridor is the master bedroom. A beautiful spacious room with built-in wardrobes and air conditioning. Adjacent to this bedroom is a very spacious, modern and luxurious bathroom. From the aforementioned terrace, there are steps for access to the swimming pool. This swimming pool has a standard size of 8x4 metres, is in very good condition and is equipped with a cover to close it off.
