## Serranía de Ronda, Gaucín

Authentic village building with double entrance, three connecting floors, and the possibility of a panoramic terrace — a unique renovation opportunity in the center of Gaucín (Andalusia) In the heart of the historic center of Gaucín, one of the most beautiful and culturally vibrant white villages in Andalusia, is this traditional three-story building with a rare feature: two independent entrances from different streets and at different levels, as well as an interior staircase connecting all floors, making its renovation extremely easy.

- Lower level (23 m<sup>2</sup>, registered as a warehouse): a former bakery with its original wood-fired oven and kneading machines, with a direct door to the back street.
- Main floor (82 m<sup>2</sup>): accessed from the main street of the village, spacious and bright, ideal as a living area or to create a separate home.
- Upper floor (82 m<sup>2</sup>): perfect for bedrooms, a study, or another residential unit. In total, the property offers 187 m<sup>2</sup> of official built space on an 82 m<sup>2</sup> plot and the possibility of adding a fourth floor with a panoramic terrace, from which to enjoy open views of the mountains and the white landscape of Gaucín. Its layout and two main entrances, combined with the interior vertical connection, open up endless possibilities:

- Convert it into two completely independent homes.
- Create a spacious family home with a work or study area with its own entrance.
- Develop a boutique tourism project (apartments, a rural house, or a small charming hotel).

The building retains original details of great character, highly valued by those seeking an authentic project steeped in history.
